

E-Commerce Expansion Manager (f/m/d)

You have a passion for e-commerce, good consulting skills and are keen to drive the rollout of an innovative healthcare e-commerce platform in Europe – then you've come to the right place!

Your territory

- You provide operational support for the international rollout of the e-commerce platform in Europe and in the daily business of different development projects
- You advise the local European entities in the conceptualization and development of their e-commerce activities such as pricing, logistics and payment while considering internal and external requirements
- You identify, specify and communicate necessary requirements for the e-commerce operations at the intersection of PXG Health Tech and the local entities
- You are responsible for the practicability of requirements and to leverage synergies

Your skills

- You have a minimum of 3 years professional experience in e-commerce, digital product management or relevant consulting
- You have a profound understanding of e-commerce, its operations and relevant systems
- You have strong analytical skills and a good understanding of complex processes
- You feel comfortable with agile working approaches and project management tools (Scrum or Kanban),
- You are fluent in both German and English and have intercultural management skills
- You are flexible and willing to travel abroad occasionally

Who we are

PXG Health Tech is the independent digital unit of PHOENIX group, the leading pharmaceutical trading company in Europe. We are a young team of strategists, software developers and project managers that work closely together in an interdisciplinary and agile way.

What we do

Our mission is to develop personalised digital products and services to fulfil the healthcare needs of each individual. For this purpose, we are building an integrated healthcare platform with the focus on e-commerce that will transform the European pharmacy business and customer experience. At the same time, we continuously identify, test and validate innovations, engage with leading technology and service providers and establish collaborations with innovative start-ups.

How we work

We work customer- and solution-oriented, see challenges as opportunities, love to explore new topics and to broaden our horizons. We work together at eye level and believe every single team member is important for driving our success. We have a start-up-like and agile, yet professional working atmosphere with flat hierarchies. Our loft-like office is located in the heart of Mannheim.

Bring health to people

Work in an agile environment

Startup flair with corporate benefits
